

You are expected to have completed the following exercises by the time you return to school on Thursday January 28. A pdf copy of the work is available on the public drive so that you can do the homework even if there is a delay in purchasing the new textbook.

Pdfs can be found at:

public/Mathematics/Year12 Further Mathematics/2016 Holiday homework

It is expected that you will complete the work to a high standard. For example, any graphs require clear labels, ruled lines and measured scales. Writing needs to be legible.

The homework exercises are:

General Maths Units 1 & 2

1D Approximations, decimal places and significant figures

Chapter 1: Displaying and describing data distributions

1A Classifying data

1B Displaying and describing the distributions of numerical variables

1C Displaying and describing the distributions of numerical variables

Chapter 2: Summarising numerical data

2A Dot plots and stem plots

2B The median, range and interquartile range

Use the table below and cross out or highlight each question as it is completed.

General Maths Units 1 & 2										
1D	1	2	3	4	5	6	7	8	9	10
Further Maths Units 3 & 4										
Chapter 1										
1A	1	2	3	4	5	6				
1B	1	2	3	4	5	6	7	8		
1C	1	2	3	4	5	6	7	8	9	
Chapter 2										
2A	1	2	3	4	5					
2B	1	2	3	4	5	6	7	8		

You will need to produce this sheet as well as the completed work on the first day back.
